TECHNOLOGIES

It hardly feels like working! – Yet you'll recognise the power when SALTIX 3 glides across your floor!

The SALTIX 3 was designed to meet the needs of both contract cleaners and hotels as well as shops and offices. In fact, any customer demanding an efficient, powerful, yet easy-to-use dry vacuum cleaner, will find the lightweight and compact SALTIX 3 quite handy in various applications. The excellent design with features like the parking clip and ergonomic grip means that the SALTIX 3 can be easily stored and transported, even when space is limited in cleaning rooms and on stairs.

Nilfisk-ALTO SALTIX 3 can be equipped with nozzles and accessories that fit all cleaning tasks, including hard floor, carpet, furniture, etc.

The SALTIX 3 is equipped with our reliable DualFilter system

DualFilter

High Filtration & Protection

To insure a high filtration level and keep the dust and dirt inside the machine while vacuuming, the Nilfisk-ALTO SALTIX 3 offers the DualFilter system. It consists of a double layer filterbag plus a Microvel cloth filter (inner sack filter) as second filtration stage. The DualFilter system ensures reliable protection of the motor.

Inner sack filter
SALTIX 3 is equipped with a inner sack filter ensuring a high level of dust filtration.

Cord storage
The practical design makes it easy to remove the cord without unravelling.

Nilfisk-ALTO SALTIX 3 features and benefits, t

Feature: High suction power
Benefit: Cleans more efficient using less effort

Feature: Low working sound level
Benefit: Allows cleaning during working hours

Feature: Built-in nozzle storage
Benefit: All tools within reach at all times

Feature: Cord storage
Benefit: Saves time as the cord is removed without unravelling

Feature: Robust chassis with two big wheels and one steel castor with rubber wheel
Benefit: Long life time of the vacuum cleaner, follows the operator

Feature: Bumper protector
Benefit: Protects the front wheel when bumping into sills, etc.

Parking clip
The smart feature on the back of the vac keeps hold of the tube when the machine is not working.

Storage
The compact SALTIX 3 is easy to store as it needs little storage space.

What blows away any concern about cleaning:

Feature: Excellent user interface
Benefit: Easy to reach on/off switch. Easy access to all vital parts. Follows the operator

Feature: DualFilter
Benefit: High level of filtration and protection

Feature: Inner sack filter
Benefit: Ensuring optimal dust filtering, even when used without dust bag

Feature: 10 m cable
Benefit: Large working radius

Feature: Big durable latches
Benefit: Easy to open/close to access the dust bag compartment. Securing the fitting of the motor top on the container

Feature: Large 10 L dust bag
Benefit: Fewer changes of bags means less downtime

Feature: Hose connection goes into the dust bag
Benefit: Avoids false air

Motor protection filter
One 10 L dust bag
Complete hose 32 mm, incl. curved handtool and air regulation

Optional accessories

- Crevice nozzle
- Round brush
- Upholstery nozzle
- Outer sack filter

Nilfisk-ALTO filter recommendations:

- When the machine is used without a dust bag, the inner sack filter is recommended, since it is "fixed" in the motor top and stays there.
- Both inner and outer sack filter (optional) are cloth filters in a material called Microvel. This gives a high filtration level and is easy to clean.
- Nilfisk-ALTO recommends that a dust bag is always used due to hygienic and environmental reasons and to protect the operator.

Nilfisk-ALTO (division of Nilfisk Advance A/S) is the number one professional cleaning equipment company with a turnover of 700 million € and 3800 employees.
